

July

July 4th Decorations

Supplies:

- 8 1/2 x 11 inch red, white and blue cardstock
- Red Ribbon (1" wide)
- Thin stripe stickers, star stickers and flag stickers in patriotic colors

Directions:

1. Cut two triangles from each piece of cardstock measuring approximately 4 inches in width and 5 1/2 inches in length.
2. Lay the ribbon flat on a surface and place a line of double sided tape along the bottom and top edges of the ribbon. Stick the triangles along the bottom row of tape, alternating the colors as shown. Fold the ribbon over the flags to secure them in place.

Tools:

- Westcott Laser Ruler
 - Westcott Paper Trimmer
3. Using the Laser Ruler position the laser line across the triangles and place the stripe stickers as shown. Move the laser cartridge down the ruler and position the flag stickers on the first and last triangles. Reposition the laser cartridge to place the star stickers towards the bottom of the triangles.

Tips:

- Laminate the finished tags to make them more durable.
- Adapt the project to make a brag book of photographs of your children for your pocketbook or as a gift to a family member.
