

# June

## Father's Day

### Supplies:

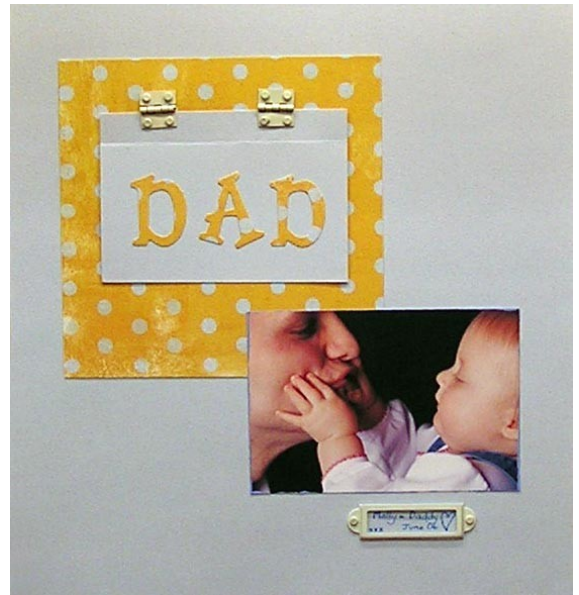

- 2 sheets 12 x 12 double-sided cardstock
- Die cut lettering
- Metal hinges and label holders

### Tools:

- Westcott Laser Ruler
- Eyelet setter
- Chalk

### Directions:

1. Cut two pieces from the cardstock, one measuring approximately 6 x 6 inches and the second measuring 5 x 3 1/2 inches.
2. Turn the smaller piece over and attach to the larger piece with the hinges as shown, using the laser ruler as a guide. Adhere the die cut lettering to the hinged piece, again using your laser ruler as a guide.
3. Chalk the outside of the photograph in a contrasting color.
4. Fix both to the 12 x 12 cardstock as shown.
5. Using the laser ruler as your guide affix the label holder, to the page.
6. Finish the page with the label and your hidden journaling.

### Tips:

- If you don't like to see your journaling on a page use hinges to create a flap to hide your wording.

### Notes:
